

SAFETY NETTING

CONVEYOR NETTING SYSTEMS

Injuries and product loss relating to overhead conveyors cost employers millions of dollars annually. Protect your employees by installing conveyor netting systems to catch product from falling to the ground below.

Expect exceptional customer service with a response time under 48 hours and on-demand delivery.

Meet multiple safety compliance needs with one customizable system at a competitive price.

Engineered systems that meet and exceed all specification and safety regulation requirements.

Protects employees and visitors from injury or death from falling objects.

INDUSTRIAL CONVEYOR SAFETY NETTING SYSTEM

An “engineered” system consisting of custom-fitted netting panels, rigging hardware and brackets.

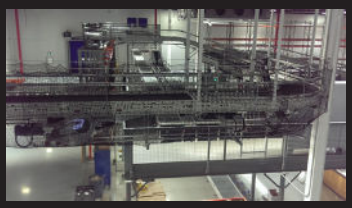

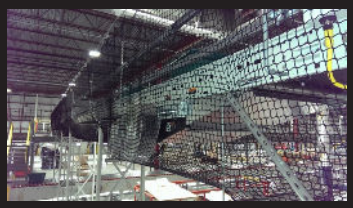

Protect employees by installing conveyor netting systems to catch product from falling to the ground below.

Traditionally, the four main concerns with conveyor systems include:

- injuries or deaths from falling objects
- extensive product loss and damage due to falls
- damaged equipment due to product falls
- high insurance premiums

Our Conveyor Netting Systems have been engineered to address and eliminate all of these concerns.

SAFETY STANDARDS MET BY NETTING SYSTEMS

- OHSA — OHSA 12.10
- ANSI — ANSI A10.11
- NFPA — NFPA 701 Fire Protection
- FDA — FDA Approved

In order to secure any product falls with a “soft catch” technique, our conveyor netting systems blend wire rope with high-strength, fire-resistant 1” mesh netting panels. Count on our netting specialists to give you a quick estimate that fully represents the fall protection requirements for your facility.
